## Application Deadlines

Students are encouraged to submit their application for admission to Lander Colleges as early as possible. Students may be admitted for the Fall, Spring, or Summer semesters. The following are the suggested deadlines for each semester:

- Summer – May 15th
- Fall – June 15th
- Spring – December 15th

*Please note the following deadlines that are earlier than above:*

- Students who wish to participate in the **Touro College Israel Option** have a **deadline** of May 15th. Applications received past that date will be considered for the fall semester of the following year.
- The **early decision deadline** for the **Lander College for Women Honors Program** is November 1st.
- Students who wish to apply to one of the **Lander College Honors programs** or **Integrated Health Science Honors Program** must fill out a supplemental application. The recommended deadline for all Honors programs is March 1st.

**AN APPLICATION IS CONSIDERED COMPLETE ONLY WHEN ALL OF THE FOLLOWING HAVE BEEN RECEIVED BY THE OFFICE OF ADMISSIONS:**

## Application Materials

1.  **Lander Colleges Application for Admission**
2.  **Application fee of \$50.** The application fee is non-refundable and can be paid by credit card, check, or money order (made out to Touro College). The application fee is waived if the student submits the application while in Israel to the Touro College office in Jerusalem.
3.  **Standardized Test Scores:** The Committee on Admissions strongly recommends **all applicants to the Lander Colleges** take either the Scholastic Assessment Test (SAT) or the American College Testing Program examination (ACT). **The SAT or ACT is mandatory for: students who wish to be considered for an academic scholarship, (b) an early admissions candidate or (c) to the Lander College for Women.** Students should arrange to have their scores sent to the Office of Admissions. Touro College's score report number for the SAT is 2902; for the ACT, it is 2961. (*Please note that the self-reporting of the scores on the application does not replace the need for official documentation.*)
4.  **Transcripts** of all high school and college work: Official transcripts should be mailed to the Office of Admissions directly from the school or submitted by the applicant in a signed and sealed envelope. Transcripts must bear the student's legal name, contain the school's seal, and indicate the student's date of graduation, if applicable. All high school and college level work - degree and non-degree - must be submitted, even if the student does not intend or expect to transfer credit (Please note: Transcripts sent via fax or e-mail are not considered official.).
5.  **Interview / English Proficiency Examination:** The Committee on Admissions may request that an applicant report for a personal interview with a representative of the college. They may also be asked to take an English proficiency examination. These items will be used in evaluating the applicant's candidacy for admissions.
6.  **Interview / Gemara proficiency:** The Committee on Admissions for the **Lander College for Men** requires that all applicants have a personal interview with a representative of the college. During this interview the student's proficiency in Gemara will be assessed. These items will be used in evaluating the applicant's candidacy for admissions.

All materials should be sent to:

**Lander Colleges  
Office of Admissions  
1602 Avenue J, Room 207  
Brooklyn, NY 11230**

## Important Information for Applicants to the Touro College Israel Option

- Please Read Carefully -

Applicants who are planning to spend a year of post-high school study in Israel at one of the affiliated Israeli institutions through the Israel Option must apply *separately* to both one of the Lander Colleges and the desired Israeli institution. Applicants seeking admission to participate in the Touro College Israel Option should carefully follow the Lander College application instructions and submit the **Application Addendum** along with the regular Lander College application. The Touro College Israel Option has a firm deadline of **May 15th** for the academic year.

Both Lander College and the Israeli institutions affiliated with the Touro College Israel Option maintain completely independent application and admissions processes. **Acceptance to the Israeli institution is not a guarantee of admission to any of the Lander Colleges.** To be eligible to participate in the Touro College Israel Option an applicant *must* be fully accepted (no credit limitations) to one of the Lander Colleges as *well* as accepted to one of the affiliated Israeli institutions. If applicants admitted on a probationary or non-matriculated basis should choose to attend school in Israel, albeit *not* on the Israel Option, the Office of Admissions would be happy to defer their acceptance to Lander College until the following fall semester.

Students who are eligible to participate in the TCIO will receive a TCIO enrollment packet. The items in that packet will need to be completed and submitted to Touro College in order to be enrolled in the TCIO.

Financial aid from federal and New York state agencies is generally available for students who are eligible to participate in the Israel Option just as if they were attending one of the New York campuses of Touro College. **Eligibility for financial aid is neither a guarantee of acceptance to Touro College nor a guarantee of eligibility for the Touro**

**College Israel Option.** Federal and state agencies generally take six to eight weeks to process financial aid applications, so it is advisable to complete the online FAFSA application as early as possible. Please refer to the Lander College Financial Aid brochure for additional information.

### NO STUDENT WILL BE CONSIDERED AN OFFICIAL TOURO COLLEGE ISRAEL OPTION PARTICIPANT UNTIL:

1. The student receives an acceptance letter indicating that he/she has been fully accepted to the Lander Colleges (Probationary and non-matriculated students are *not eligible* to participate in the Israel Option);
2. The student completes, signs, and returns the *Financial Contract* to participate in the *Touro College Israel Option* along with the required fees and documentation.

Remember, while in Israel the student must register for courses in the fall and spring semesters.

**PLEASE REFER TO THE TOURO COLLEGE ISRAEL OPTION BROCHURE FOR MORE INFORMATION.**

# Meningitis Response Form

**Students must provide a Certificate of Immunization for Meningococcal meningitis disease OR complete this form.**

### What is meningococcal disease?

Meningococcal disease is a severe bacterial infection of the bloodstream or meninges (a thin lining covering the brain and spinal cord.)

### Who gets meningococcal disease?

Anyone can get meningococcal disease, but it is more common in infants and children.

For some college students, such as freshmen living in dormitories, there is an increased risk of meningococcal disease. Between 100 and 125 cases of meningococcal disease occur on college campuses every year in the United States; between 5 and 15 college students die each year as result of infection. Currently, no data is available regarding whether children at overnight camps or residential schools are at the same increased risk for disease. However, these children can be in settings similar to college freshmen living in dormitories. Other persons at increased risk include household contacts of a person known to have had this disease, and people traveling to parts of the world where meningitis is prevalent.

### How is the germ meningococcus spread?

The meningococcus germ is spread by direct close contact with nose or throat discharges of an infected person. Many people carry this particular germ in their nose and throat without any signs of illness, while others may develop serious symptoms.

### What are the symptoms?

High fever, headache, vomiting, stiff neck and a rash are symptoms of meningococcal disease. Among people who develop meningococcal disease, 10-15% die, in spite of treatment with antibiotics. Of those who live, permanent brain damage, hearing loss, kidney failure, loss of arms or legs, or chronic nervous system problems can occur.

### How soon do the symptoms appear?

The symptoms may appear 2 to 10 days after exposure, but usually within five days.

### What is the treatment for meningococcal disease?

Antibiotics, such as penicillin G or ceftriaxone, can be used to treat people with meningococcal disease.

### Is there a vaccine to prevent meningococcal meningitis?

Yes, a safe and effective vaccine is available. The vaccine is 85% to 100% effective in preventing four kinds of bacteria (serogroups A, C, Y, W-135) that cause about 70% of the disease in the United States. The vaccine is safe, with mild and infrequent side effects, such as redness and pain at the injection site lasting up to 2 days. After vaccination, immunity develops within 7 to 10 days and remains effective for approximately 3 to 5 years. As with any vaccine, vaccination against meningitis may not protect 100% of all susceptible individuals.

### How do I get more information about meningococcal disease and vaccination?

Contact your family physician or your student health service. Additional information is also available on the web sites of the New York State Department of Health, [www.health.state.ny.us](http://www.health.state.ny.us); the Centers for Disease Control and Prevention, [www.cdc.gov/ncid/dbmd/diseaseinfo](http://www.cdc.gov/ncid/dbmd/diseaseinfo); and the American College Health Association, [www.acha.org](http://www.acha.org).

{Note: If you received the meningochoccal vaccine available before February 2005, called Menomune™, please note this vaccine's protection lasts for approximately 3-5 years. Revaccination with the new conjugate vaccine, called Menactra™, should be considered within 3-5 years after receiving Menomune™.}

- read, or have had explained to me, the information regarding meningococcal meningitis disease. I will obtain immunization against meningococcal meningitis from my private health practitioner or when offered through Touro College.
- read, or have had explained to me, the information regarding meningococcal meningitis disease. I understand the risks of not receiving the vaccine. I have decided that I will **not** obtain immunization against meningococcal meningitis disease.
